Reasons for Allowance

1. As per Applicant's instructions as filed on 5/09/2005, claims 1-7 and 20-25 have been canceled.

2. Claims 8-19 are allowed.

3. The following is an Examiner's statement of reasons for allowance.

Claims 8-19 recite novel features of a method of selecting image frames to be skipped during an encoding process, the method comprising:

receiving a sequence of frames including a first frame;

calculating a first cost function value for the first frame, wherein the cost function includes a first temporal parameter related to a time difference and luminosity difference between frames bounding the first frame;

calculating a second cost function value for a second frame, wherein the cost function includes a second temporal parameter related to a time difference between frames and luminosity differences bounding the second frame; and

selecting for skipping one of the first frame and the second frame based at least in part on the first cost function value and the second cost function value.

The prior art of records fail to anticipate or make obvious the novel features (emphasis added on underlined limitations) as discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
